Welcome to Stevenson College, and welcome to the Stevenson Core Course. Stevenson’s two-quarter core course is required of all first-year* students. The course engages students with some of the most challenging and influential texts of global and multicultural discourse. From our first quarter readings, including Plato, Sartre, the Bhagavad Gita and the Qur’an, to our second quarter readings, including Freud, Marx, Virginia Woolf, and Malcolm X, throughout the course we ask two fundamental questions: (1) How should thoughtful or enlightened individuals conduct their lives (i.e., what are the characteristics and goals of what might be called the “ideal self”)? (2) How do we work best to establish a good and just social community (i.e., what are the conditions and purposes of the “ideal society”)? These questions reflect the deepest of human concerns: “Who am I, what am I living for, and what are my obligations to my community and the world at-large?”

The Stevenson Core Course provides a unique and important educational experience:

1. It is interdisciplinary: The course integrates a range of academic disciplines, including philosophy, history, literature and politics.

2. It is team-taught: Faculty come from a range of academic disciplines, and the course reflects the creative energies of a diverse group of scholars and teachers.

3. It provides small seminar classes for Stevenson students. Classes of approximately 22-25 students meet two to three times a week.

4. Stevenson Core helps students develop their skills in writing, reading, and critical analysis.

5. The course creates a common intellectual experience unique to Stevenson, one shared not only with your fellow first year students, but also with all Stevensonians.

*Students admitted as transfer students are exempted from the core course but may take the course if they need the C1 or C2 requirement, or at their option on a space-available basis.

You can begin to enroll in Stevenson Core Course via your student portal during Summer Orientation or on August 3.
Please use this **CORE COURSE ENROLLMENT GUIDE** to help you understand how you will enroll in your core course section. Be sure to have your exam scores and transcripts submitted to the Admissions Office by **July 1**. *(If you have AP/IBH scores from multiple years, you may need to specify to the testing services which scores you would like sent to UCSC. The AP/IBH chart showing how your scores are applied to UCSC requirements is available at: [http://admissions.ucsc.edu/publications/ap-ib-chart.pdf](http://admissions.ucsc.edu/publications/ap-ib-chart.pdf).)*

SUMMER ASSIGNMENT

READING ASSIGNMENT:

You may purchase the book from Bay Tree Bookstore, your local bookstore, or on-line sources such as Amazon or Barnes & Noble.

WRITING ASSIGNMENT (Due on the first day of class)

Your summer assignment is to make complete, detailed, analytic, interpretive reading notes of the essay as you read it. We will call this exercise your “road map” of the text.

Directions for your road map:

- Capture all content to the best of your ability. Don’t let any ideas slip through the cracks. This probably means making notes on each paragraph you read. Note page numbers throughout so you can easily find passages later.
- Think of the roadmap as part receptive (you trying to engage and understand the essay) and part creative (you writing down your own ideas and questions).
- Notice your understanding as you go:
  - If you think you understand a passage, paraphrase it and jot down your response. Generate a question, objection, or example.
  - If you aren’t sure you understand a passage, imagine a couple of different interpretations and sketch them.
  - If you are a bit lost, try to pinpoint why. Is there a word or reference you don’t understand? Is the sentence or paragraph particularly complex? Write down any questions, concerns or insights about why a part is tough to “get.”
- Ways to make your roadmap most valuable:
  - Copy your favorite (and least favorite!) quotes.
  - Remember connections between this essay and other texts you’ve read or topics you’ve studied. Note that connection in your road map.
  - Let the text help you generate your own questions about “self and society.” Write down these queries, right in the middle of your road map.
  - Draw, make diagrams, use arrows, or flowcharts to help you clarify content.

Be ready to discuss the piece at the first meeting of your Core Course section.

Some issues to consider as you read:

- What do we all have in common as human beings? How does Sartre answer this question?
- How should we solve moral dilemmas? How does Sartre judge the moral decision-making process of his young student? (see pp. 350-353)
- How would you describe our social responsibilities to one another? Based on what you have read, how do you predict Sartre might answer this question?
